

The Premier Cruise Book for Today's Navy

Your Great-Grandfather's Cruise Book

In 1913, the USS Arkansas (BB-33) set sail on a Med-cruise with eight other battleships. The ship's senior Yeoman, using the best technology available to him at the time, painstakingly recorded the cruise with photographs and text in what is believed to be the first cruise book.

Why do most cruise books today still look like they did in 1913? Today Navy ships run on nuclear power, not coal, and the Combat Information Center on a modern Navy ship looks like something out of Star Trek. But today's cruise books are as big and bulky as they were a hundred years ago, still two-dimensional, and the crew still does all the work.

Moving the Cruise Book into the 21st Century

Remember My Service (RMS) brings your history to life in an interactive, multimedia DVD-ROM, incorporating today's technology to fully tell your story and your ship's story.

In addition, we also produce a traditional, hard-bound, full-color cruise book, that can be sized as either a family keepsake for the coffee table or a pint-sized brag book that Grandma keeps in her purse. The DVD-ROM is conveniently stored in the back cover.

The DVD-ROM, which plays on any computer, dwarfs the traditional cruise book with all it can hold: hours of videos (flight ops, unreps, homecomings, sailor interviews), thousands of photos, every newsletter ever published, broadcast and print media, biographies, leadership messages, weblinks, and more. This informative and engaging format provides a comprehensive, three-dimensional look at your ship and the people you served with.

The Premier Cruise Book and interactive DVD-ROM

We Do the Work For You

For most ships, this might be the best reason to work with RMS. You submit your images, videos, documents, bios, newsletters, and anything else... and we do the layout, editing, production, printing, and on-time delivery. We are a full-service production management team specializing in military interactive commemoratives and cruisebooks. All you do is give us the content—and we take it from there. You make history, and we make it your legacy.

You Make History. We Make it Your Legacy.

Sample of RMS Home Directory Page

Navigation bar allows viewers to access all areas of the Commemorative quickly and easily

Each RMS project is organized into 3 main sections:

Legacy, Leadership, and Life

Additional weblinks to important websites

"Proud to Serve" video feature

Commander's video message

Sample of RMS Legacy Section Page

History of the Navy and ship, including past deployments and awards of recognition

Media coverage of all kinds, including broadcast and print media, from military and non-military sources

Legacy video features

Sample of RMS Leadership Section Page

Links to a complete chain of command, from Commander In Chief to division leadership

Links to additional pages containing messages (video or audio) and bios of leadership

Link to a customized leadership video

Sample of RMS Life Section Page

Menu of linked items is customized to the ship to include any deployments or training

Menu is customized to the ship to include any homefront activities, including family, service, and community

"Answering the Call" and HomeFront video features

We do the work for you

You collect your own photos and video, and we take it from there. We manage your interactive RMS Commemorative and your cruisebook from editing and layout to the final proofing, working with you until it is the way you want it.

QUICK FACTS

Each RMS Commemorative includes:

- 1 DVD-ROM (Windows and Mac compatible)
- 1 printed "classic" cruise book OR 1 commemorative journal

About the interactive DVD-ROM

The interactive RMS Commemorative on DVD-ROM provides a comprehensive look at the sailor's service, including video interviews, leadership messages, full bios, newsletters, press releases, media articles, and broadcast media. The record can include declassified military information such as briefings, orders, information, and events relating to everyday life on the ship.

About the Cruise Book

This "classic" cruise book includes 40 or more full-color pages. Finished book is a hard-bound volume with rigid spine.

Available in the following sizes:

- Square 5x5, 8x8, or 12x12 inches
- Portrait 8 1/2x11 or 9x12 inches

About the Commemorative Journal

The journal is a 6x9 inch (portrait orientation) hard-bound book with 16 full-color pages, plus more than 40 lined note pages.

Made in the USA

Each RMS Commemorative is produced entirely in the U.S.A.
